MD ARMAN ALAM

Software Development Engineer (SDE) | Full-Stack Java Developer

Bangalore, India | +91-7978206195 | arman.dev09@gmail.com | linkedin.com/in/md-arman-alam | github.com/MdArman09

PROFESSIONAL SUMMARY

Computer Science graduate (9.13 CGPA) with strong competencies in Java, Spring Boot, RESTful Web Services, and relational database systems. Hands-on experience developing modular 3-tier enterprise applications, designing secure APIs with Role-Based Access Control (RBAC), and implementing responsive SPAs using Angular and React 19. Proficient in SDLC best practices, automated build processes (Maven), code reviews via Git, and algorithmic problem-solving in Java.

TECHNICAL SKILLS

Languages: Java (Core & J2EE), SQL / Open SQL, TypeScript, JavaScript, HTML5/CSS3, ABAP
Frameworks & Web: Spring Boot, Spring Data JPA, Hibernate, Angular, RESTful APIs, Servlets, JSP
Databases & Cloud: MySQL, MongoDB Atlas, Firebase Auth
Developer Tools: Git, GitHub, Postman, Maven, Apache Tomcat, VS Code, Eclipse
Core CS: OOP, DBMS, Operating Systems, SDLC Best Practices, Algorithmic Problem Solving
MERN & AI Stack: React 19, Node.js, Express, MongoDB/Mongoose, Groq SDK (Llama 3.3 70B), JWT, Zod, Tailwind CSS

KEY ENGINEERING PROJECTS

AI Mock Interview Coach (Flagship AI & Full-Stack Platform)

React 19, Express 4, Groq (Llama 3.3 70B), MongoDB Atlas

- Dual input system (browser Web Speech API + typing) featuring deterministic code-computed pacing (WPM) and 10 filler-word detection metrics.
- Engineered structured STAR evaluation scoring Situation/Task/Action/Result (0-10) with exact evidence quotes extracted from transcripts.
- Architected two-stage resume ingestion pipeline extracting candidate experience level and computing question budget in code without LLM math.
- Hardened Groq JSON-mode orchestration with model fallback (to openai/gpt-oss-120b), concurrency queue, and exponential backoff retry.
- Implemented secure auth with bcrypt, SHA-256 hashed single-use OTPs with Mongo TTL, and monotonic tokenVersion for instant session revocation.

Sports Event Management System (SEMS)

Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, Angular

- Architected a 3-tier enterprise platform with Spring Boot exposing secured RESTful APIs for multi-entity tournament and venue management.
- Designed a normalized MySQL schema using Hibernate ORM enforcing transactional boundaries and relational foreign-key integrity.
- Implemented token-based authentication with Role-Based Access Control (RBAC) and responsive Angular dashboards for event coordinators.
- Automated builds with Maven and validated endpoint contracts and status codes using Postman test collections.

Centurion Library Management System (CLMS)

Java Servlets, JSP, JDBC, MySQL, Apache Tomcat, MVC

- Applied the MVC pattern: Servlets for request routing and business logic execution, and JSP for dynamic data-bound views.
- Engineered 3NF MySQL schema, optimized multi-table join queries, and enforced relational integrity across patrons, catalog, and borrow logs.
- Implemented automated circulation lifecycles, book availability tracking, overdue fine calculation, and session state on Apache Tomcat.

EXPERIENCE & PRACTICAL TRAINING

Web Development Intern | Plasmid Innovation Ltd (Remote)

Apr 2024 - Jun 2024

- Developed modular, responsive client-side interfaces for production web applications with cross-browser compatibility.
- Integrated RESTful API endpoints with frontend views for dynamic data rendering and asynchronous communication.
- Participated in git-based engineering workflows: performed peer code reviews and resolved UI/logic defects before staging deployment.

SAP ABAP Trainee (Guided Training) | EME Company

Aug 2025 - Oct 2025

- Completed guided training in SAP ABAP development: ALV Reports, Open SQL, Data Dictionary (DDIC), and modular programming.
- Practiced developing and testing ABAP database CRUD programs and Open SQL queries using custom and standard SAP tables.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Aug 2022 - Sep 2026

Centurion University of Technology and Management, Bhubaneswar, Odisha | CGPA: 9.13 / 10

CERTIFICATIONS & HONORS

- SAP Certified Associate: Back-End Developer, ABAP Cloud (Oct 2025) - SAP Official Certification
- SAP Certified Associate: SAP Fiori Application Developer (Dec 2025) - SAP Official Certification
- IEEE TECHSPARK Project Expo Finalist: Shortlisted in top 62 of 85+ teams; awarded 'O' (Outstanding) grade for architecture.
